October 2020

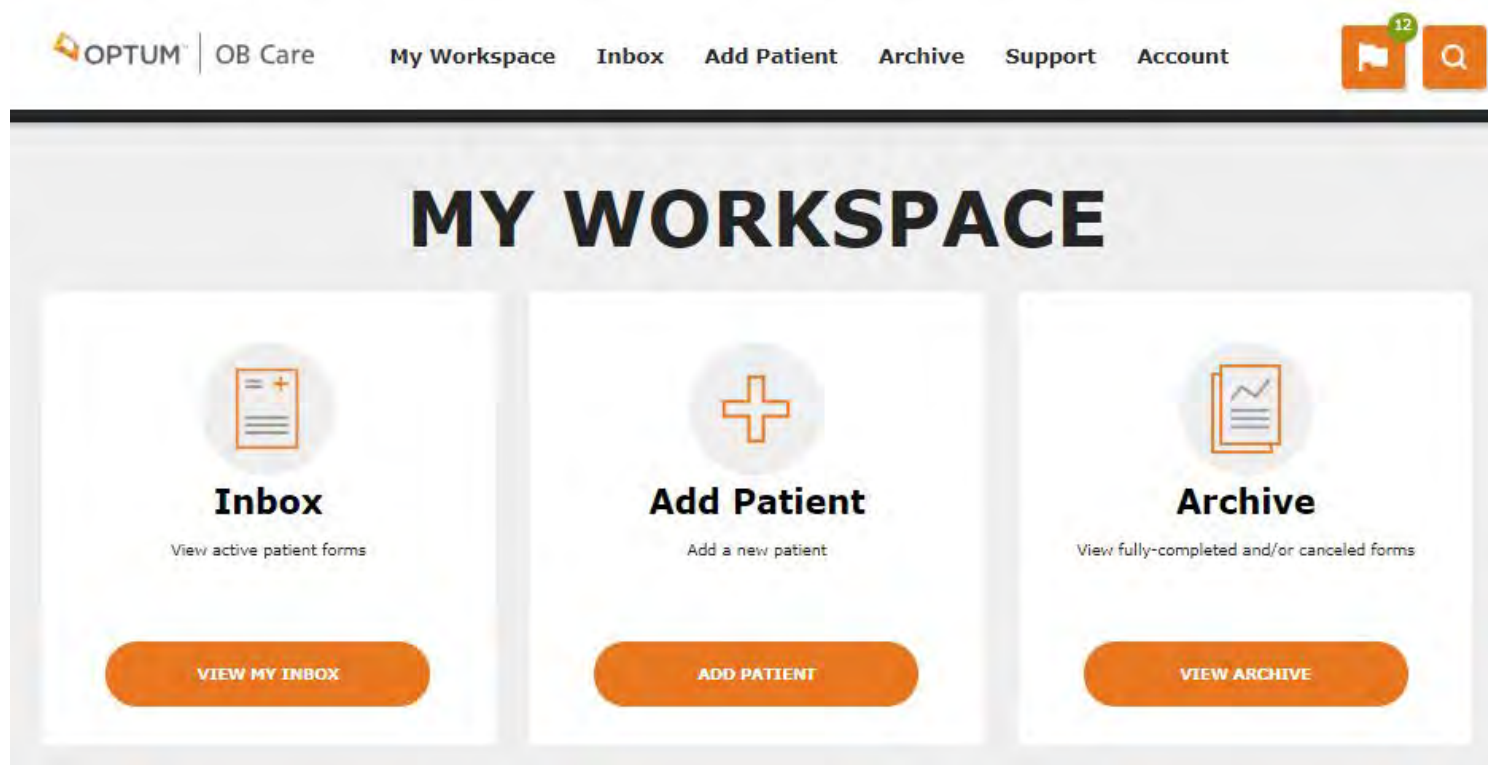

OB Care Enhancements/Features Overview

Key Enhancements

- Updated UI fields according to DHS requirements
- Corresponding updates to PDF and JSON outputs

Key New Feature

- User account expiration (90 days)

NEW FEATURE – USER ACCOUNT EXPIRATION

- OB Care automatically deactivates user accounts after 90 days of the last login date so that clinic administrators no longer need to manually deactivate unused user accounts
- Changed the inactive user error message when the user attempts to log in with an inactive account to “Your account has been made inactive. To reactivate your account, please contact your clinic admin or click the Contact Us button.”
- Added a “Contact Us” button that links the user to the ‘Contact Us’ help page.

DEPRESSION AND TOBACCO

CHANGES TO THE TILE

- Three questions are presented when the tile opens:
 - ‘Depression Present?’ – this was changed from ‘Depression Screen?’ The detailed information required for this section does not appear unless the ‘Yes’ box is checked.
 - ‘Tobacco Use?’ – this is a new question. The detailed information required for this section does not appear unless the ‘Yes’ box is checked.
 - ‘Exposure to Environmental Smoke?’ – this was in the ‘Tobacco Use’ section previously

OPERATION OF THE TILE

The operation of this tile has changed as follows:

- You must check the ‘Yes’ or ‘No’ checkbox to answer each of the three questions.
- If you check ‘Yes’ to answer each question, the tile will expand to allow you to provide additional information for each question.

The screenshot displays the OPTUM OB Care interface. At the top, there is a navigation bar with 'OPTUM | OB Care' and links for 'My Workspace', 'Inbox', 'Add Patient', 'Archive', 'Support', and 'Account'. A notification icon with the number '12' is also present. Below the navigation bar, a patient profile card for 'TEST1 ALEXANDER' is shown, including their DOB (1/21/2004), Age (16), MCO Member ID (1234abcd), and Health Plan (United Healthcare). A 'MEMBER OVERVIEW' button is located below the profile card. The main content area features a horizontal navigation bar with four tabs: '3 DEPRESSION & TOBACCO', '4 PAST OR CURRENT COMPLICATIONS', '5 CURRENT RISKS', and '6 HEALTH CONDITIONS'. The 'DEPRESSION & TOBACCO' tab is selected and highlighted in orange. Below this tab, the 'DEPRESSION AND TOBACCO' section is displayed, containing three questions with 'Yes' and 'No' checkboxes: 'Depression Present?', 'Tobacco Use?', and 'Exposure to Environmental Smoke?'. At the bottom of the section, there are two buttons: 'SAVE AND CONTINUE' and 'BACK'.

Frequently Asked Questions

Frequently Asked Questions (October 2020)

What if exact date is unknown for some fields such as flu vaccine or if the patient declines flu vaccine?

There are three options for influenza. You must enter the Influenza Vaccine Date OR check the box next to N/A OR Refused.

How is someone supposed to determine if depression is present? Is this subjective by the person completing the form or if a diagnosis of depression is listed on the problem list?

A depression assessment is not part of OB Care. If the member has been assessed using a validated depression tool and depression is present, then indicate the tool using the Select Depression Tool drop down.

What if a person is not depressed - but they were assessed using a validated depression screening tool?

If the person is not depressed, check the 'No' box in response to the 'Depression Present?' question. You can add notes to OB Care if you want to capture that person had an assessment using a validated screening tool and the results were negative. There are text fields in the Current Risks, Active Health Conditions and Notes tiles.

How do we capture that a screening was performed if the outcome was NOT depression present?

As discussed in the answer to the previous question, you can add notes in the Current Risks, Active Health Conditions and Notes tiles if you want to capture that a screening was performed if the outcome was NOT depression present.

Is there a field for NRT accepted (yes/no)?

No.

When the patient doesn't know their last menstrual period (LMP), and didn't have the ultrasound yet for dating, is that when the best EDC is used? How should this handled?

DHS requested the change of the label from EDC to Best EDC.

Why change of days? HEDIS metric is 1-84 days not 21-56.

This change was requested by DHS.

What are the types of visits available as drop down?

The visit types are "Office," "Telemedicine," and "Home Health Visit."

Is bullet two reversed on slide 15? Changed from 21-56 TO (should be 7) – 84 days for HEDIS purpose.

Yes, thank you. We have corrected the slide in this presentation.

Explain the Risk Tab, please.

The Risk Assessment is to document risk factors that have been identified. Indicate on form where appropriate and fax form at any time during pregnancy.

Is there a character length limit on the narrative fields?

There are text fields in the Current Risks, Active Health Conditions and Notes tiles. Character length limits are 100 for Current Risks and Active Health Conditions tiles and 500 for the Notes tiles.

Is the MCO # the Tax ID? (Applicable to MCOs only.)

The MCO quarterly report has a field called "Provider ID." This field is the clinic's Tax ID Number.

When will the paper/PDF version with these updates be made available? Are we required to begin submitting with updated fields on 11/13/20, regardless of submission type (Optum, fax, etc.)?

On Nov. 13, 2020, providers will only be able to access the updated OB Care.

When are these changes live?

Nov. 13, 2020, we will deploy the changes after regular business hours to minimize disruption in the provider offices.
